

## Measures of Schools and Students in Claremont School District May 2023

Inequitable education funding in New Hampshire affects far more than the property taxpayer. Students' educational experiences can be drastically different all over the state. Below is some helpful information about the schools in the Claremont Regional School District and how they compare to the rest of the state.

### Students and Student Characteristics

Claremont School District has grades from kindergarten through 12<sup>th</sup> grade between Bluff School, Disnard Elementary School, Maple Avenue School, Claremont Middle School, and Stevens High School. Table 1 shows enrollment in October 2023 by grade

**Table 1**

Grade	K	1	2	3	4	5	6	7	8	9	10	11	12	Total
Students	120	101	139	108	123	110	110	116	128	148	140	109	118	1,586

**Table 2**

Category	American Indian/Alaskan Native	Asian or Pacific Islander	Hispanic	Black Non-Hispanic	White Non-Hispanic	Multi-Race	Total
Students	4	29	76	17	1482	68	1676

1,482 of the 1,676 students in 2021 were white non-Hispanic.

In the 2021-22 school year, there were 1,676 public school students at Claremont. Of these, 799 were eligible for free/reduced-price school meals, meaning their family's income was below 185% of the Federal Poverty Line. This was 47% of the students, considerably more than the statewide average of 23%. Claremont has one of the highest concentrations of high-need students in the state.

Also in the 2021-22 school year, there were 334 students who were receiving special education services with an Individual Education Plan (IEP). This was 19% of the students, the same as the statewide average of 19%.

There were 4.54 students who were English language learners, less than 1% of all students. Statewide, 3% of students were English language learners in the 2021-22 school year.

## How Much Do Teachers Earn at Claremont?

In 2007-08 there were 171 teachers. In 2021-22 there were 116 teachers.

In 2021-22 the average teacher salary in Claremont was \$49,832. This was 20% below the state average of \$62,695. Since 2008, Claremont's average teacher salary has been below the state average, also has been below that of Hopkinton, and below that of Portsmouth.

Claremont's average teacher salary increased by 16% from 2007-08. At the same time, the Consumer Price Index increased by 36%.

Average teacher salary is affected by two things: the actual salary schedule of a district and the number of years of teaching experience among the teachers. Teacher salary schedules generally increase salaries as teachers gain experience through years on the job. It is therefore possible for two districts that have identical salary schedules to have different average salaries. The salary of a newly recruited teacher depends on the district's salary schedule, not on the average teacher's salary.

Starting salaries, on the other hand, show us what a recent college graduate (bachelor's degree) could earn as a first-time teacher in a district. This is important for hiring and retaining quality teachers over the long term.

The starting salaries for teachers in New Hampshire ranged from \$31,712 to \$59,752 in the 2021-22 school year.

Figure 1

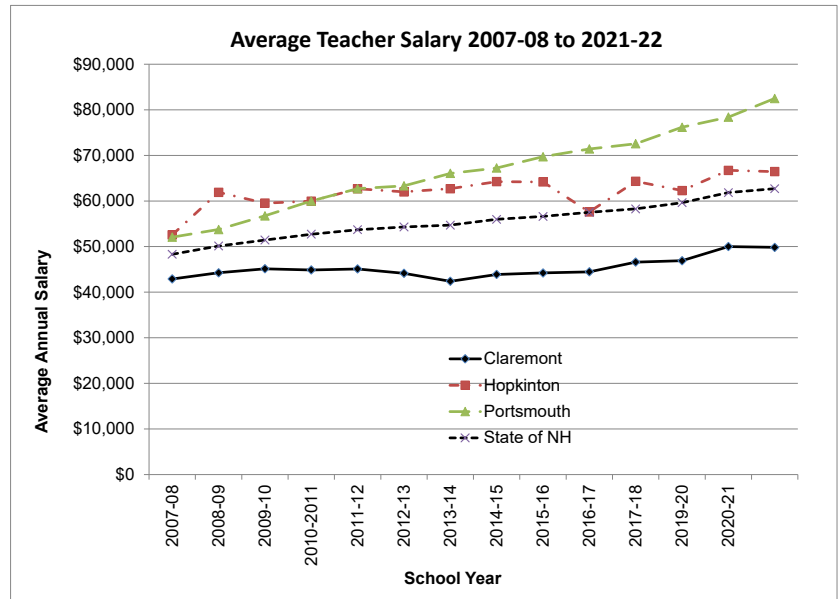

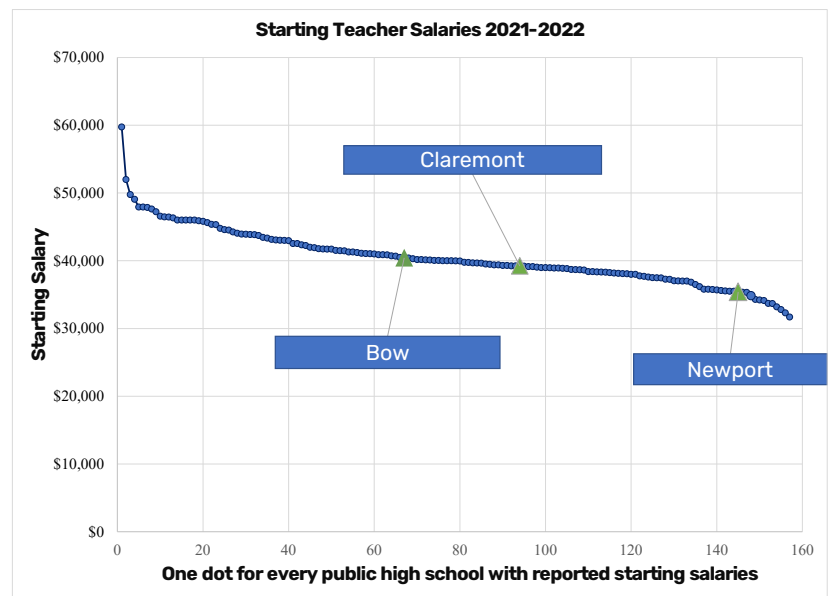

Figure 2

Claremont has a starting salary for its teachers of \$39,228 for the 2021-22 school year. Claremont's starting salary for teachers was 3% lower than the state average of \$40,478 in 2021. In Figure 2 we can see that schools like Bow and Newport have different starting salaries than Claremont.

## What Sports Are Available to Claremont High School Students?

The New Hampshire Interscholastic Athletic Association (NHIAA) organizes high school sports competitions in New Hampshire. Of 34 NHIAA sports in 2019-20, Claremont offered 21 athletic programs for its 515 enrolled school students. Of the high schools with an enrollment of over 400 students, the average number of sports was over 20. The number of interscholastic sports available to Claremont students at Claremont was average for high schools of similar size.

The interscholastic sports offered at Claremont were:

Field Hockey, Football, Spirit, Boys and Girls Golf, Boys Soccer, Girls Soccer, Volleyball, Boys Basketball, Girls Basketball, Boys and Girls Ice Hockey, Swimming and Diving, Boys Wrestling, Ten-Pin Bowling, Unified Basketball, Baseball, Softball, Boys Lacrosse, Outdoor Track, Boys Tennis, and Unified Track.

The sports available in any particular year will depend, of course, on the availability of coaches and whether enough students sign up.

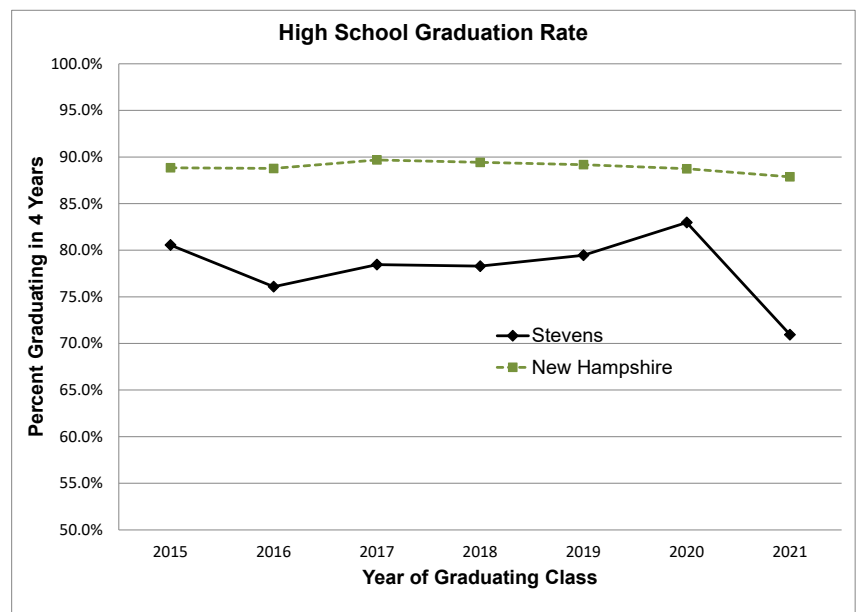

## What is the High School Graduation Rate?

Claremont graduated 713 students in graduating classes from 2015 through 2021. The graduation rate over those 7 years averaged 78.3%. This was far below the state average of 88.9% over the same years.

Of course, the rate varied somewhat from year to year as shown in Figure 3. As seen, Claremont's graduation rate has fluctuated over the years.

Ranking the 81 New Hampshire public high schools' graduation rates over this period from highest rate (1) to lowest rate (81), Claremont ranks 75th.

Figure 3

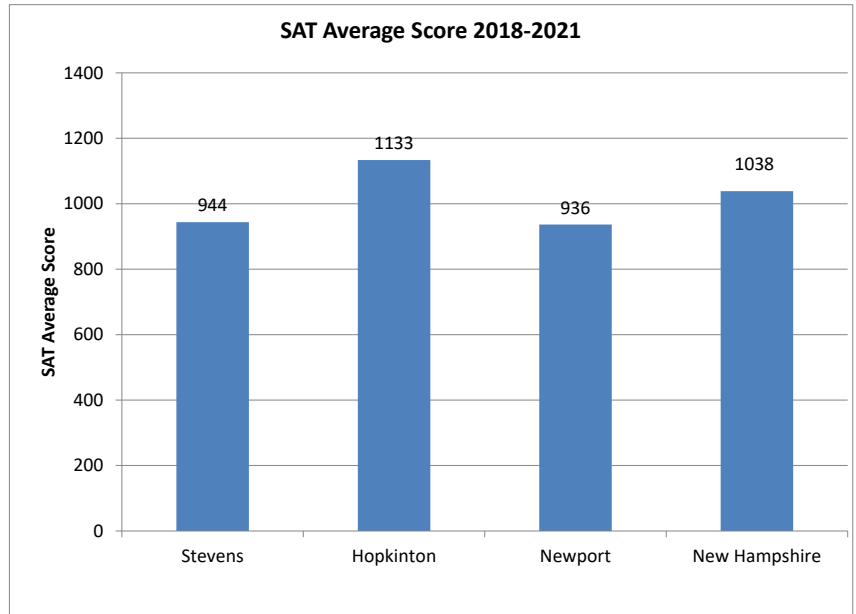

## How Well Do High School Students Do on the Annual SAT Exam?

One of the standardized exams used by New Hampshire to measure student achievement in high school is the SAT of the College Board. There are two parts: Mathematics and Evidence-Based Reading and Writing. The possible range of combined scores is 400 to 1600.

Over the four years from 2018 through 2021, 414 students at Claremont took the SAT exams in the spring of their junior year. The average score of those students was 944 while the New Hampshire average was 1038. Of the 79 public high schools for which data was available, Claremont ranked 72nd (rank #1 being the highest average score and rank #79 being the lowest average score).<sup>1</sup> Claremont was one of the lowest scorers in the state.

The total October enrollment over 4 years of the junior year totaled 528. As a percentage of enrollment, 21.6% were not tested. The percentage of untested students statewide was 12.2%. Thus, Claremont was unable to test a larger percentage of its juniors than the average.

Figure 4

## What Courses are Available to Students in Claremont?

Course availability is an important measure of a student’s educational opportunity. Based on Course of Studies collected from NH Public High Schools from the 2021-22 school year, course offerings were compiled, as well as the state average of nine-course categories ranging from Math to Arts. Table 4 shows that Claremont falls below the state average in most categories.

The availability of courses is tied to several factors. The size of a school plays a large role in what a school can offer as well as staffing, transportation, and licensure. Claremont High has roughly 500 students yearly, while the average high school size in NH is 692.

Table 4

School	World Language	A P	English Electives	Math	Social Study Electives	Computer Technologies	Career Tech	Arts & Performing Arts	Science Electives
Claremont									

<sup>1</sup> Scores are not available for Bud Carlson Academy in Rochester and Pittsburg High School because the number of test takers in any particular year was fewer than 5.

Claremont # of courses	15	4	8	15	9	4	20	23	4
State Average # of courses	14	9	11	17	10	6	26	23	13

## Advanced Placement Results in Claremont

In the four-year span from 2018 to 2021, there were 22,966 AP exam takers and 36,355 exams taken in New Hampshire. As a percentage of enrollment, 10.6% of students took AP exams. During that time, Claremont had 74 test takers and 96 exams taken. 38 of those exams scored high enough to earn credit at some colleges.

Claremont offered 4 AP courses for the 2021-2022 academic year. Table 5 compares Claremont to the state's averages for test takers as a percentage of enrollment, the percentage of exams that scored a 3, 4, or 5, and the number of students who scored a 3 or higher out of 100 students. Claremont fell far below the state averages in all three measures.

**Table 5**

School	Test takers as a % of enrollment	% of Exams Scored 3,4,5	Successful AP Test per 100 enrolled
Claremont	4.5%	39.6%	2.3
State Average	10.6%	69.1%	11.6

## How Likely Are Students from Claremont to Apply, Earn Admittance, and Enroll at The University of New Hampshire?

The University of New Hampshire (UNH) is one of New Hampshire's public higher education institutions. The school is often a popular choice for many NH students graduating from public high schools. Though not the only choice, analyzing the application, admission, and enrollment patterns among New Hampshire High Schools can tell us interesting things about the post-secondary paths of students.

Based on data collected by the University of New Hampshire, counts of applications, admissions, and enrollments over a 5-year time period between 2017-2021 were available for analysis. Using the senior enrollments as of October 1<sup>st</sup> at NH public high schools over a 5-year period helps protect the identity of students at small schools and helps build a better sample.

On average, based on the years 2017-2021, 27% of New Hampshire's public school senior class applied to the UNH. Of those students who applied, 83.8% of them were admitted to the University of New Hampshire. Though, on average only 7.4% of all seniors ended up enrolling and attending UNH.

Claremont was below the state average in terms of UNH applications, but above average for admissions, and below average for enrollments. Over the 5 years, Claremont had 15.8% of their seniors apply to UNH. Of those applicants, 92.4% were admitted and 7.4% of their seniors enrolled and attended UNH.

As seen throughout this paper, educational experiences for New Hampshire students vary widely across the state. A school's finances can make a large impact on the student population in their post-secondary lives.

*Note: Data used in this report are taken from reports and spreadsheets of the NH Department of Education, The University of New Hampshire, and the College Board (2022 Adequacy Summary, School Sports, Average Daily Membership Based Upon Attendance and Residence (ADM), Average Class Size by School, and DoE25 Extract for State Profile Data for various years, Teacher Salaries, SAT scores, and graduation rates). Such data are reported by New Hampshire school districts to the Department. The number of courses offered was hand collected from Programs of Study from 79 New Hampshire Public High Schools.*
