School Funding and Property Taxes

Overview

- Taxpayers and students are not treated equitably or fairly.
- The problem is getting worse.
- The current system is unconstitutional.

Public High School A

- **62%** of 3rd graders are proficient or above in math and **60%** in reading
- **93%** of students graduate
- **77%** of AP test takers score a 3 or above
- Teachers make an average of **\$64,527**
- Median household income is **\$102,358**
- Education property taxes are **\$5.00** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **93%** of students graduate
- **77%** of AP test takers score a 3 or above
- Teachers make an average of **\$64,527**
- Median household income is **\$102,358**
- Education property taxes are **\$5.00** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **75%** of students graduate
- **77%** of AP test takers score a 3 or above
- Teachers make an average of **\$64,527**
- Median household income is **\$102,358**
- Education property taxes are **\$5.00** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **75%** of students graduate
- **0%** of AP test takers score a 3 or above
- Teachers make an average of **\$64,527**
- Median household income is **\$102,358**
- Education property taxes are **\$5.00** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **75%** of students graduate
- **0%** of AP test takers score a 3 or above
- Teachers make an average of **\$50,250**
- Median household income is **\$102,358**
- Education property taxes are **\$5.00** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **75%** of students graduate
- **0%** of AP test takers score a 3 or above
- Teachers make an average of **\$50,250**
- Median household income is **\$61,664**
- Education property taxes are **\$5.00** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **75%** of students graduate
- **0%** of AP test takers score a 3 or above
- Teachers make an average of **\$50,250**
- Median household income is **\$61,664**
- Education property taxes are **\$5.50** per \$1,000 of value, resulting in a **\$1,750** on a \$350,000 home

Public High School B

- **10%** of 3rd graders are proficient or above in math and **less than 10%** in reading
- **75%** of students graduate
- **0%** of AP test takers score a 3 or above
- Teachers make an average of **\$50,250**
- Median household income is **\$61,664**
- Education property taxes are **\$5.50** per \$1,000 of value, resulting in a **\$1,925** on a \$350,000 home

Gilford (A) compared to Franklin (B)

- **10%** **62%** of 3rd graders are proficient or above in math and **less than 10%** **60%** reading
- **75%** **93%** of students graduate
- **0%** **77%** of AP test takers score a 3 or above
- Teachers make an average of **\$50,250** **\$64,527**
- Median household income is **\$61,664** **\$102,358**
- Education property taxes are **\$5.50** **\$5.00** per \$1,000 value, resulting in a **\$1,925** **\$1,750** on a \$350,000 home
- Only 14 miles apart

2020 Commission to Study School Funding

“The state’s current system is inequitable from both student and taxpayer perspectives... Moreover, the districts with the least property wealth per student impose the highest local education tax rates to be able to fund their children’s education.”

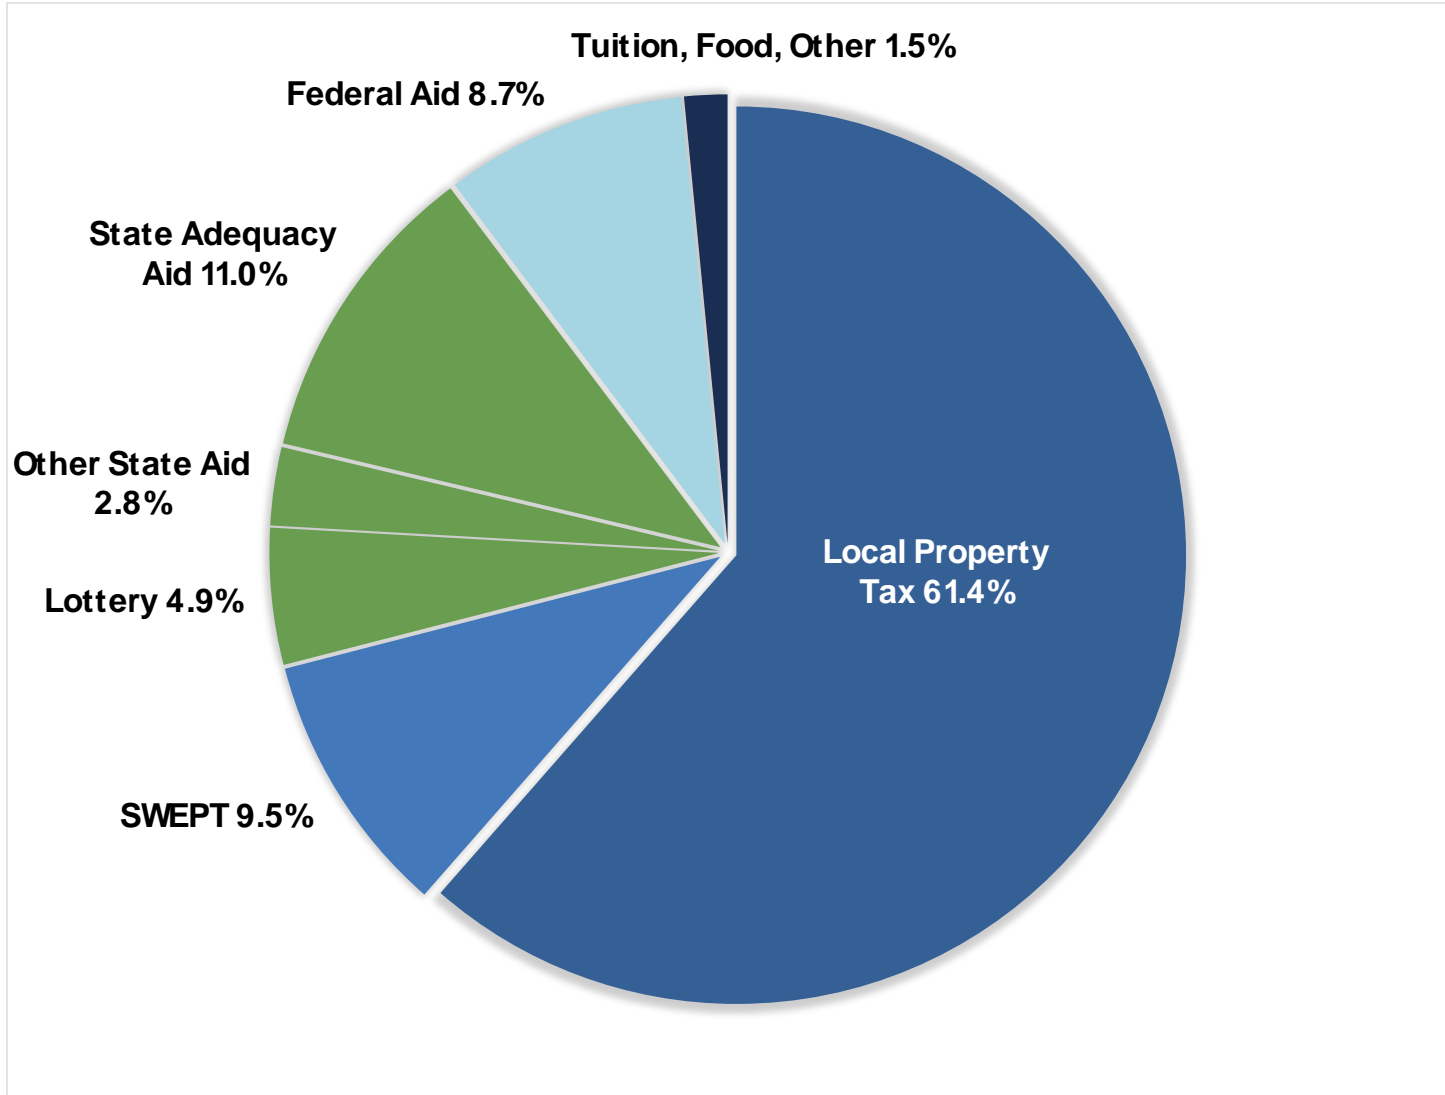

“The negative relationship between districts’ aggregated student outcomes and student poverty (proxied by FRPL rates) is clear and strikingly linear.”

*Equity and Adequacy of New Hampshire School Funding
American Institutes for Research, August 2020*

NH Relies Overwhelmingly on Local Property Taxes to Fund Public Education

2022-2023 Revenue of NH School Districts - \$3.80 billion

State of NH Gets Sued in the 90s

Five School Districts

Claremont, Pittsfield, Lisbon Regional, Franklin, and Allenstown

Eight Taxpayers & Parents

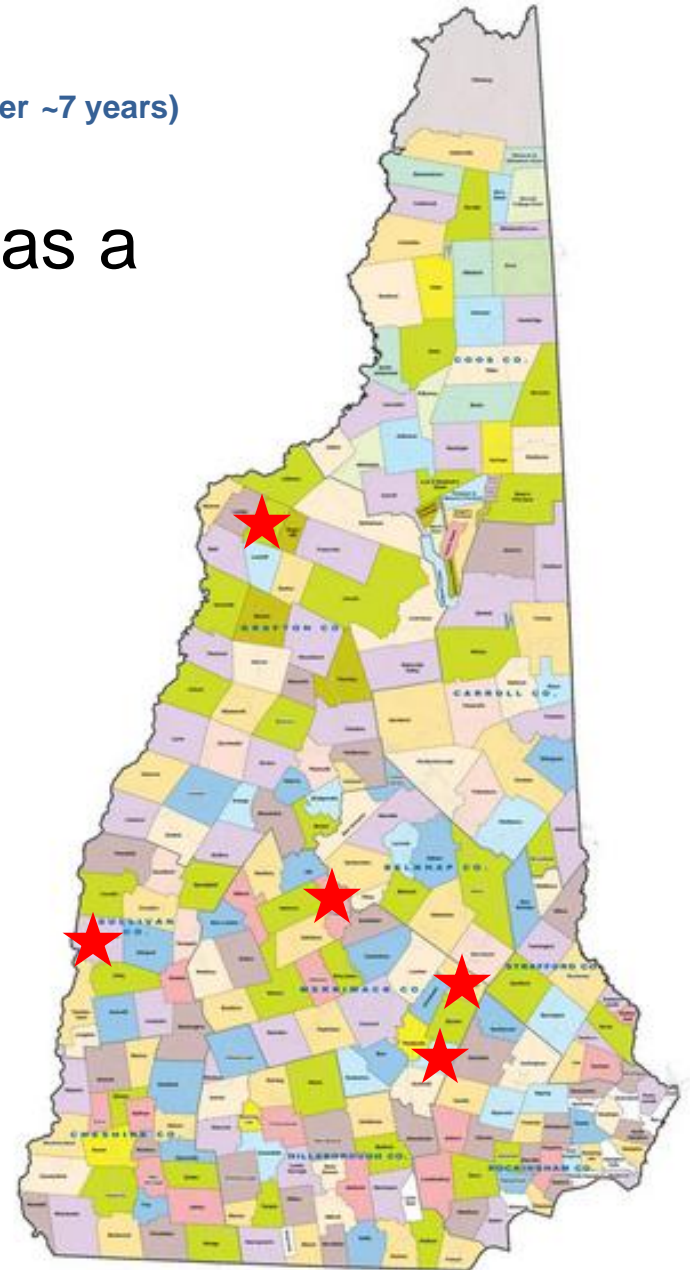

Five Students

Plaintiffs Win! (after ~7 years)

1. The State of New Hampshire has a duty to pay for the cost of a **constitutionally adequate** education for every K-12 student.

2. The taxes that the State uses to pay for this education must have a **uniform rate** across the state.

The Scope of an “Adequate Education”: Expansive and Future-Oriented

“Mere competence in the basics—reading, writing, and arithmetic—is insufficient in the waning days of the twentieth century to insure that this State's public school students are fully integrated into the world around them. A broad exposure to the social, economic, scientific, technological, and political realities of today's society is essential for our students to compete, contribute, and flourish in the twenty-first century.”

Claremont II, 142 N.H. at 474

Reforms Following Claremont Rulings

Statewide Education Property Tax – SWEPT (\$6.04)

New “adequacy aid” funding from State

Local education property taxes **decreased** from \$17.68 in 1998 to \$7.22 in 1999. When combined with the new SWEPT rates, average total education property taxes **still decreased** to \$13.26.

20 Years Following Claremont

- Coalition of property wealthy towns lobbied to change SWEPT – only a local tax
 - Now, some locations have **negative** tax rates
- Courts **again** ruled legislature must define and pay for an adequate education in 2006 (Londonderry v. NH)
- From 2012-2022, the burden on local property tax payers to fund public education increased \$614 million (compared to the State's increase of \$47M)
- Multiple legislative commissions (2008, 2018, 2020) study the issue without significant reform

**What do you need to
provide an “adequate
education”?**

How the State Defines “Adequacy”

193-E:2-a Substantive Educational Content of an Adequate Education. –
I. (a) Beginning in the school year 2008-2009, and for each year thereafter, the specific criteria and substantive educational program that deliver the opportunity for an adequate education shall be defined and identified as the school approval standards in the following learning areas:

- (1) English/language arts and reading.**
- (2) Mathematics.**
- (3) Science.**
- (4) Social studies, including civics, government, economics, geography, history, and Holocaust and genocide education.**
- (5) Arts education, including music and visual arts.**
- (6) World languages.**
- (7) Health and wellness education, including a policy for violations of RSA 126-K:8, I(a).**
- (8) Physical education.**
- (9) Engineering and technologies including technology applications.**
- (10) Personal finance literacy.**
- (11) Computer science.**

What the State Thinks You Need to Provide an “Adequate” Education

- Staff
 - 1 Teacher per 25 students K-2, per 30 students 3-12
 - 1 Specialist teacher for every 5 teachers
 - 1 Principal per 500 students
 - 1 Principal Administrative Assistant per 500 students
 - 1 Guidance Counselor per 400 students
 - 1 Library Media Specialist per 500 students
 - 1 Technology Coordinator per 1,200 students
 - 1 Custodian per 500 students
- Other
 - Instructional Materials
 - Technology
 - Teacher Professional Development
 - Facilities Operation and Maintenance
 - Transportation

What the State Thinks You Need to Provide an "Adequate" Education

- Staff
 - 1 Teacher per 25 students K-2, per 30 students 3-12
 - 1 Specialist teacher for every 5 teachers
 - 1 Principal per 500 students
 - 1 Principal Administrative Assistant per 500 students
 - 1 Guidance Counselor per 400 students
 - 1 Library Media Specialist per 500 students
 - 1 Technology Coordinator per 1,200 students
 - 1 Custodian per 500 students
- Cost (2008\$)
 - \$47,267
 - \$47,267
 - \$101,014
 - \$42,177
 - \$51,867
 - \$47,267
 - \$47,267
 - \$36,628
- Other
 - Instructional Materials
 - Technology
 - Teacher Professional Development
 - Facilities Operation and Maintenance
 - Transportation
- Per Pupil Cost
 - \$250
 - \$75
 - \$20
 - \$195
 - \$315

“Calculated Cost of an Adequate Education”

Every student receives **\$4,100** in “Base Adequacy”

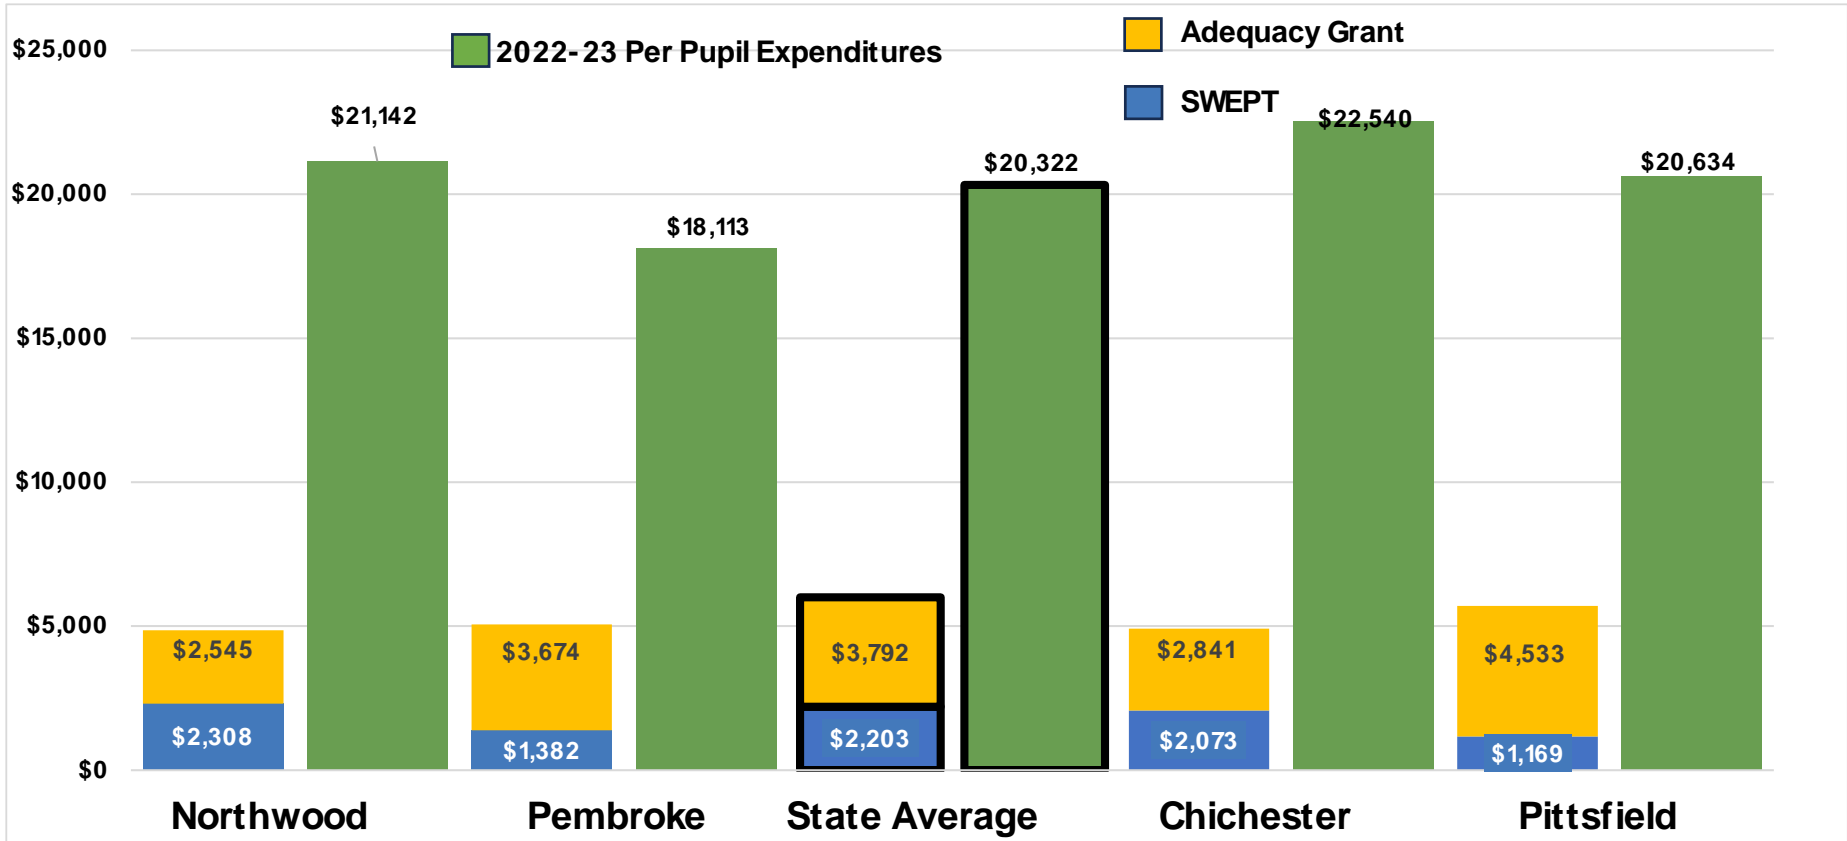

+ \$2,300 for each student eligible for free or reduced-priced lunch

+ \$800 for each student who is an English Language Learner

+ \$2,100 for each student receiving special education services

= \$5,148 per student on average

Current State Adequacy Grants Fall Well Short of Costs Communities Face in Educating Children

What Does an “Adequate” K-12 Education Cost?

An Example

The State of New Hampshire said that, for Allenstown’s 511 students, an adequate education should cost **\$2,418,121** or **\$4,980** per student in 2022-23.

The Allenstown School District budget for 2022-23 was **\$12,243,949** or **\$24,197** per student.

So, let’s pare that budget down.....

So let's pare that budget down...

Eliminate all busing (including special education busing)

Eliminate all English Language Learner support

Eliminate all special education contracted services

Eliminate all special education appraisal services

Eliminate all special education out-of-district placements

Eliminate all supplies, copier machines, liability insurance, plumbing and heating repairs

Eliminate all educational materials (including new textbooks)

Eliminate all art, music, and PE equipment

Eliminate all Chromebook technology and software contracts

Eliminate all co-curricular clubs, sports, field trips, and student assemblies

Eliminate two secretaries

Eliminate three of 4 custodians

So let's pare that budget down...

Eliminate all school board stipends and fees

Eliminate all payments on the school building bond *(resulting in default)*

Eliminate all summer programs

Eliminate all food services

Eliminate the art teacher

Eliminate the music teacher

Eliminate the physical education teacher

Eliminate the behavior teacher

Eliminate all substitute salaries

Eliminate one of the 2 nurses

Eliminate both guidance counselors

Eliminate both street crossing guards

Eliminate technology support personnel

Eliminate the assistant principal

So let's pare that budget down...

Eliminate two of 17 special education paraprofessionals (and reduced special education coordinator to half-time)

Eliminate special education speech/language pathologist

Eliminate one of 7 special education teachers

Eliminate the reading specialist

Eliminate the special education secretary

Eliminate the library media specialist

Eliminate the speech language pathologist

Eliminate reduced library aid to half-time

Eliminate grounds maintenance (including plowing)

Eliminate SAU 53 costs (including the superintendent and staff) and fees for audits and attorneys

What Does an “Adequate” K-12 Education Cost?

An Example

Cut all tuition payments for 147 High School students

- Allentown budgeted \$2.2M for tuition to Pembroke Academy
- There is no way to control this line item, so it had to be cut

Budget at this point is still far above the State’s “adequacy” level

Now cut to the State’s “adequacy” level of \$2,418,121

- Nearly everything else has been eliminated, so now eliminate nearly half of the remaining teachers
- Grades K-4 would have **29 students/teacher**
- Grades 5-8 would have **38 students/teacher**
- An “adequate education” would **end in the 8th grade...**

How does anyone believe that this will provide an adequate education for Allentown’s 511 students?

Role of Property Taxes & Resulting Inequities

It's simple math.

Property Value	Tax Rate (Per Thousand)	Revenue Raised
\$1,000,000	\$10.00	\$10,000
\$400,000	\$10.00	\$4,000

Role of Property Taxes & Resulting Inequities

It's simple math.

Property Value	Tax Rate (Per Thousand)	Revenue Raised
\$1,000,000	\$10.00	\$10,000
\$400,000	\$25.00	\$10,000

Comparing Communities

Town	Pupils	Equalized Value Per Pupil	Equalized School Tax Rate	Amount Raised Per Pupil
Pittsfield	500	\$989,175	\$8.67	\$8,576
Allenstown	483	\$1,040,342	\$11.11	\$11,558
Epsom	556	\$1,221,498	\$13.14	\$16,050
Northwood	551	\$1,660,145	\$10.29	\$17,083
Chichester	297	\$1,713,064	\$10.19	\$17,456
New Hampshire	157,405	\$1,884,285	\$8.55	\$16,111
Canterbury	217	\$2,247,379	\$9.45	\$21,238
Portsmouth	2,119	\$4,445,024	\$4.70	\$20,892

Which Home Has the Larger Property Tax Bill?

Welcome to Docksider at Wentworth by the Sea. This home is one of only 6 waterfront townhouses at Little Harbor in New Castle, NH, offering three levels of beautifully designed living spaces with sweeping views of Little Harbor and Wentworth Marina. Soaring ceilings and a custom cabineted chef's kitchen make this the perfect sanctuary for recharging and relaxing.

Beautiful craftsman cape in desirable south location. This immaculate Home is meticulously maintained. Lots of natural light, hardwood, and tile floors with natural wood molding. Beautifully updated kitchen with custom maple cabinets, porcelain tile floor, and tile backsplash. The large living room opens to the formal dining room. This home is very warm and inviting.

Which Home Has the Larger Property Tax Bill?

New Castle

2024 market price: \$3,595,000
Tax rate: 1.21

2023 school property tax: \$4,349

Manchester

2024 market price: \$450,000
Tax rate: 6.83

2020 school property tax: \$2,520

Property Tax Reliance Adds to Regressivity of New Hampshire's Tax System

Taxes as a Share of Income, by Income Group, 2024

Average Teacher Salary 2007-08 to 2022-23

State of NH Gets Sued AGAIN

ConVal v. State of NH

Started by the Contoocook Valley School District (ConVal) in 2019. They argue that the amount of adequacy money is insufficient to provide an opportunity for an adequate education.

Other school districts representing 25% of all public school students joined: Winchester, Mascenic, Monadnock, Fall Mountain, Claremont, Newport, Hillsboro-Deering, Grantham, Oyster River Cooperative, Manchester, Windham, Derry Cooperative, Hill, Mascoma Valley Regional, Nashua, Lebanon, Hopkinton, and Plainfield.

ConVal v. State of NH Ruling

"What is the base cost to provide the opportunity for an adequate education 239 years after that fundamental right was ratified in our Constitution? The short answer is that the Legislature should have the final word, but the base adequacy cost can be no less than **\$7356.01 per pupil per year and the true cost is likely much higher than that.** At a minimum this is an increase of \$537,550,970.95 in base adequacy aid to New Hampshire Schools. **Thus, the current allocation of \$4100 per pupil is unconstitutional.**"

-Decision in ConVal v. State of New Hampshire

ConVal v. State of NH Ruling

- **Why \$7,356 per pupil?**
 - **\$3,981** for Teachers
 - **\$901** for principals, administrative assistants, guidance counselors, librarians, technology coordinators, and custodians
 - **\$430** for instructional material, technology, and professional development
 - **\$1,000** for facilities operation and maintenance
 - **\$750** for transportation and **\$294** for nurse services

"In total, these conservative choices and overcorrections demonstrate that a base adequacy aid figure of \$7,356.01 would in actuality be far too low and would likely not survive scrutiny."

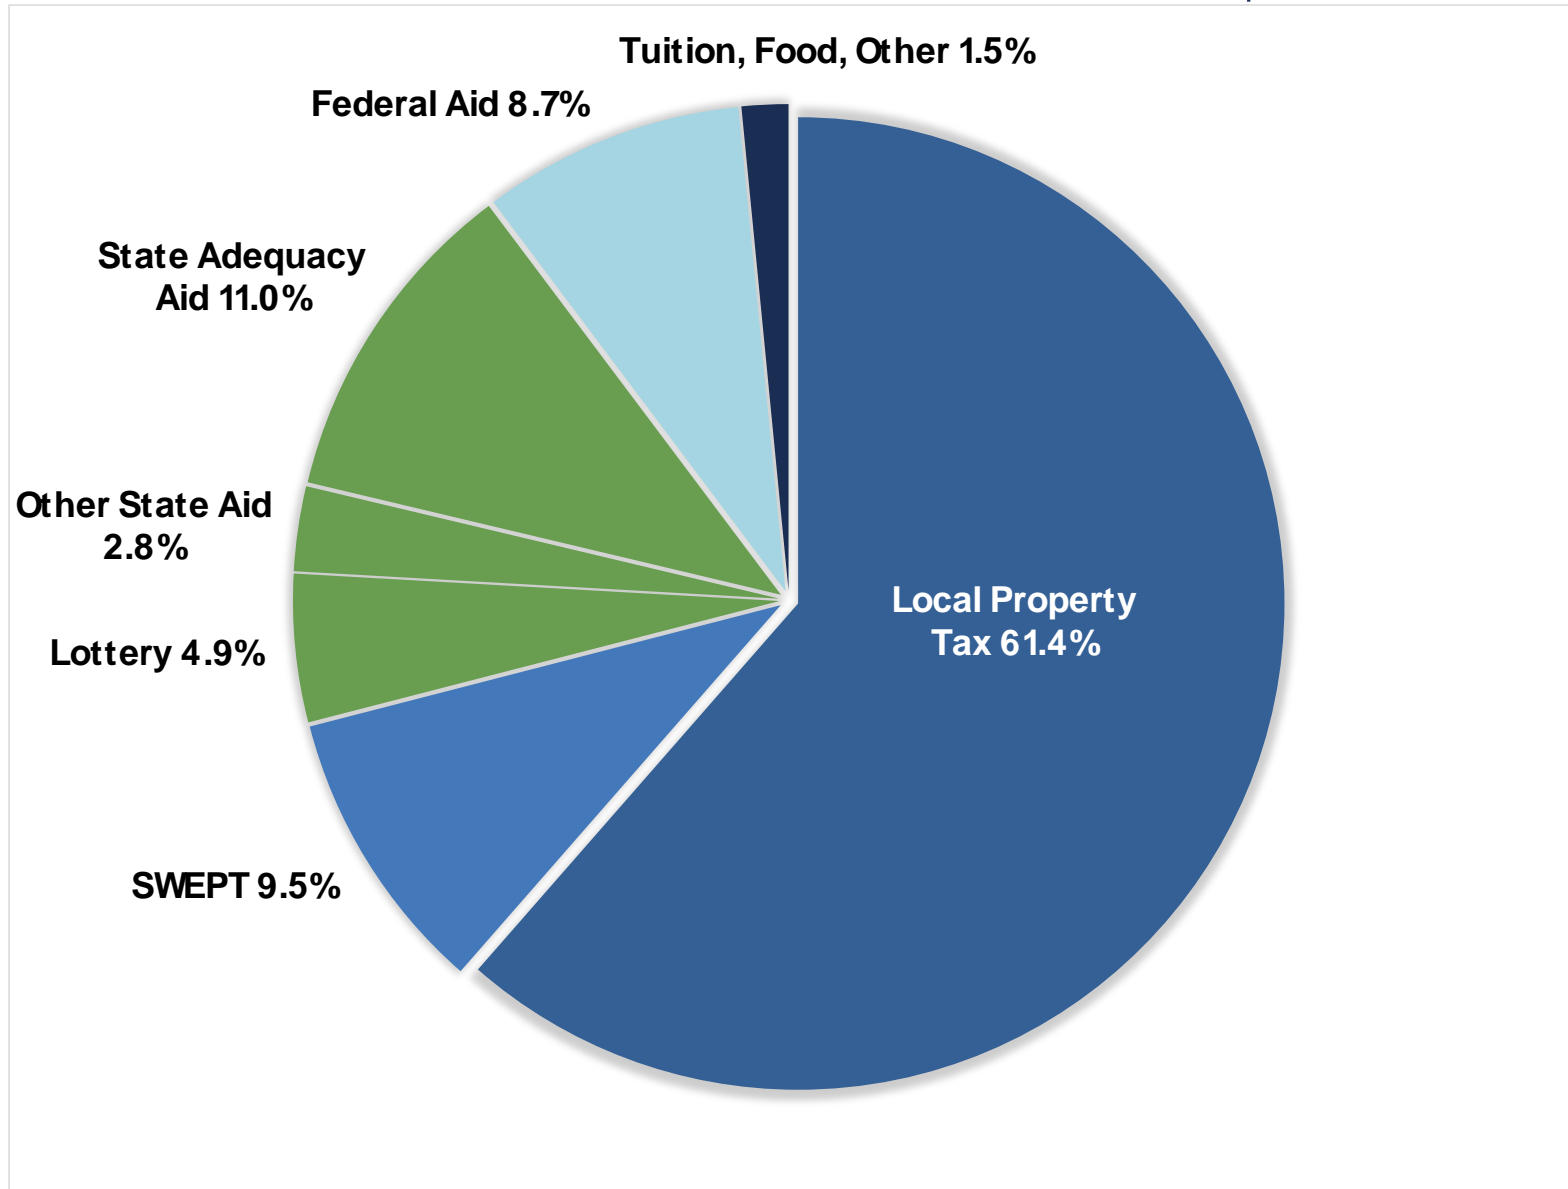

ConVal v. State of NH Ruling

"The State presented no evidence to justify the current base adequacy amount. As predicted by the Court in its prior order on summary judgment, the evidence at trial overwhelmingly established that no school could provide the opportunity for an adequate education if it had to rely solely on the base adequacy aid from the State."

-Decision in *ConVal v. State of New Hampshire*

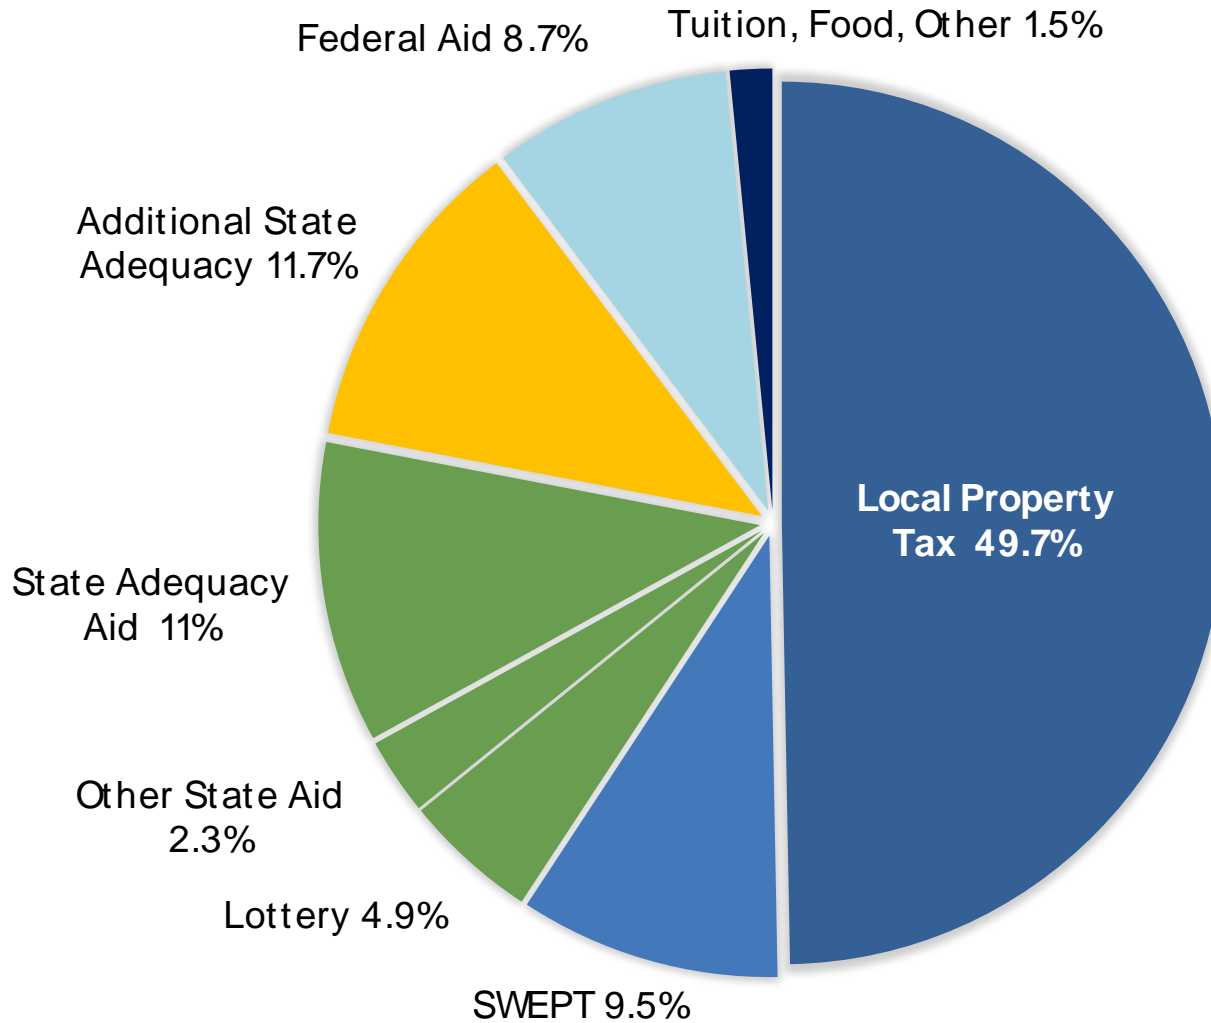

Impact of ConVal Ruling on School District Revenue

2022-2023 Revenue of NH School Districts - \$3.80 billion

Impact of ConVal Ruling on School District Revenue

Same revenue – reduced reliance on local taxes

Possible Revenue Sources

Some revenue sources that could be used to fill \$537m

- Additional true SWEPT of about \$2.03 per \$1,000
- Interest and Dividends Tax ~\$135 million
- Return Business Taxes to 2015 Levels
 - According to analysis done by the NH Fiscal Policy Institute, “the State lost between \$496 million and \$729 million in revenue” between 2015 and 2022 due to cuts in businesses taxes.

These revenues could offset & reduce local prop taxes

Possible Revenue Sources

Some revenue sources that could be used to fill \$537m

- Reinstatement of estate/inheritance taxation
- Extension of current use of wealth taxation
 - Institute a tax on capital gains
 - Establish a financial transactions tax
- A true statewide property tax of about \$10 per \$1,000 could pay for all education expenditures in the State, and would replace current local property taxes for education

The Court did not prescribe a specific revenue source

- "...the Legislature should have the final word, but the base adequacy cost can be no less than **\$7356.01 per pupil per year** and the true cost is likely much higher than that." - Decision in *ConVal v. State of New Hampshire*

and The State Gets Sued AGAIN

Rand v State of NH (2022)

Group of taxpayers from Plymouth, Newport, Penacook, and Hopkinton claim that their rights are being violated due to non-uniform tax rates.

Steve Rand at his family's hardware store in Plymouth, NH.

Rand v. State of NH

- Argues that because local property taxes used to fund the bulk of the State's funding obligation for public education are **not** uniform in rate, that is a violation of standard defined in the Claremont rulings.
- The plaintiffs challenge both base adequacy aid and differentiated aid, contending that the State's obligation should be closer to average spending in the state (roughly \$18,400 plus transportation when filed).

Rand v. State of NH Ruling on Partial Summary Judgment Motion

1. The State allowing municipalities to retain excess SWEPT revenues is unconstitutional.
 - Currently, 52 municipalities retain excess SWEPT, and are estimated to retain \$26 million this year.
2. The NH Department of Revenue Administration approving negative local education tax rates to offset the payment of SWEPT is unconstitutional.
 - In 2022, 19 municipalities had negative local education tax rates, resulting in only generating \$239,464 from \$282.7 million in property value.

2024 Legislation – Funding Changes

- **HB 1583** – increase base adequacy to \$10,000
- **HB 1656**– increase special education adequacy grant to \$27,000 per student
- **HB 1670**– state pays for all special education costs
- **HB 1586**–changes to adequacy formula, SWEPT, and property tax relief in line with Commission to Study School Funding recommendations

2024 Legislation – House Votes

- ~~HB 1583~~ – ~~increase base adequacy to \$10,000~~
 - **Amended:** ~\$64M in FY24 & +\$34M in FY25
- ~~HB 1656~~ – ~~increase special education adequacy grant to \$27,000 per student~~
 - **Amended:** ~\$17M in FY 24
- ~~HB 1670~~ – ~~state pays for all special education costs~~
 - **Recommended for Interim Study**
- ~~HB 1586~~ – ~~changes to adequacy formula, SWEPT, and property tax relief in line with Commission to Study School Funding recommendations~~
 - **Recommended for Interim Study**

2024 Legislation – House Votes

- **HB 1583** – ~~increase base adequacy to \$10,000~~
 - **Amended:** ~\$64M in FY24 & +\$34M in FY25
 - **uses estimated surplus in Education Trust Fund*
- **HB 1656** – increase special education adequacy grant to ~~\$27,000 per student~~
 - **Amended:** ~\$17M in FY 24

Estimated increase in funding from **HB 1583:**

Northwood- **\$123,299** (FY25) **\$155,390** (FY 26)

Chichester- **\$23,400** (FY25) **\$55,471** (FY26)

Pembroke- **\$682,842** (FY25) **\$769,228** (FY26)

2024 Legislation – Senate Votes

- **HB 1583** – ~~increase base adequacy to \$10,000~~
 - **Amended:** ~\$64M in FY24 & +\$34M in FY25
 - **uses estimated surplus in Education Trust Fund*
 - **Senate Finance voted today to Refer for Interim Study**
- **HB 1656** – increase special education adequacy grant to ~~\$27,000 per student~~
 - **Amended:** ~\$17M in FY 24
 - **Referred for Interim Study by the Senate on May 16**

Franklin School Funding Resolution

Passed February 2023

WHEREAS the City of Franklin adopted an FY2023 budget that included a \$19,080,631 appropriation for the funding of our schools, and;

WHEREAS Franklin Schools is expected to receive \$9,876,543 in Adequate Education funding from the State of New Hampshire for the current school year, which includes \$886,084 raised through the Statewide Education Property Tax, which is effectively a local tax because the State does not collect the revenues raised, and reduces effective State aid to \$8,990,459, only 47.1% of the City's total cost of education, and an average of \$8,218 per enrolled pupil, and;

WHEREAS the City of Franklin's Equalized Value Per Pupil (total value of taxable property divided by Average Daily Membership in Residence) of \$947,482 is only 59% of the State average, meaning the taxpayers of Franklin must be charged a higher local tax rate to raise the same amount of money of districts with higher property values, and;

WHEREAS the City of Franklin and its students and taxpayers are harmed by New Hampshire's school funding model, relative to students and taxpayers in other communities, and;

WHEREAS the New Hampshire Supreme Court has ruled on multiple occasions that the State of New Hampshire has a constitutional responsibility to pay for the cost of education, and that the continued lack of action to address these rulings has exacerbated the problem to the extent that the State finds itself facing continued litigation on school funding, and;

WHEREAS the New Hampshire General Court has the ability and responsibility to change how education is funded in New Hampshire to bring it in line with the decisions of the Court and this constitutional responsibility, and

NOW THEREFORE BE IT RESOLVED that the Franklin School Board calls upon all of the City of Franklin's elected representatives serving in the State Legislature to work toward and support a school funding solution in the best interest of students and taxpayers, that increases the amount of State education funding received by Franklin Schools and reduces the property tax burden on the taxpayers of Franklin.

What Actions Can You Take?

- Talk to your legislators
- Testify on legislation
- Can't testify in person? Use our advocacy tools to email testimony
- Share our content on social media
- Write letters to the editor
- Talk to your family, friends, and neighbors
- Subscribe to our newsletter to stay up to date with school funding news and ways to get engaged.

Summary

- Neither taxpayers nor students are treated equitably or fairly.
- The problem is getting worse.
- **Over \$2 Billion** is downshifted to local property tax payers each year.
- The current system is unconstitutional.
- The solution lies with state level lawmakers, but we need to engage with them to push for change and progress.
